README Exercise #2

Write a README for VS Code project your created from SD100 Introduction to Computer Programming.

Your README should be written using Markdown.

Your README should include 1 image of your VS CODE.

It should include the following sections:

- Project Name
- Description
- Installation
- Usage
- Version

This may be a little challenging given the large scope of the project, but try to reduce each of these sections to items you find interesting and important
